About the Authors

Core JavaServer Faces
JavaServer Faces also comes with server-side components and an event model, which are fundamentally similar to the same concepts in Swing. JavaServer Faces is quickly becoming the standard Web-application framework. Core JavaServer Faces is the one book you need to master this powerful and time-saving technology.

In Core JavaServer Faces, renowned Java developers David Geary and Cay Horstmann teach experienced Java developers all they need to create production-quality software with JSF 1.0. Geary (Graphic Java) and Horstmann (Core Java) systematically introduce JSF's tags, the basic building blocks of JSF development. Students learn how to set up the JSF programming environment, connect JSF tags to application logic, provide navigation amongst pages, convert and validate input, and more.
