Watt's innovations mark the rise in size and use of the modern steam engine (see Watt's biography in chapter 5). 1802 The Charlotte Dundras, built by Patrick Miller in England, is the first commercially successful ship to be powered by a steam engine. 1830 Steam engines become the primary energy sources used for land and water transport.

**Homemade Energy WISE Generator - Global Warming Causes**

Throughout the Irish tapestry that is "Steam," Williams weaves together traditional tunes, plus a few new compositions, into well-constructed and creatively orchestrated sets. They range from the rousing, pub-session atmosphere of "John Brady's/The Hawk From Dundalk" to the intimate, sparsely accompanied "Up In The Garrett/The Old Tipperary".
